

5 REASONS WHY YOU SHOULD WEAR COVERALL

Lives come before your job.

You think your job is important?
We believe your life is even more important!

Wearing a CE certified coverall keeps you safe,
and we want that for you.

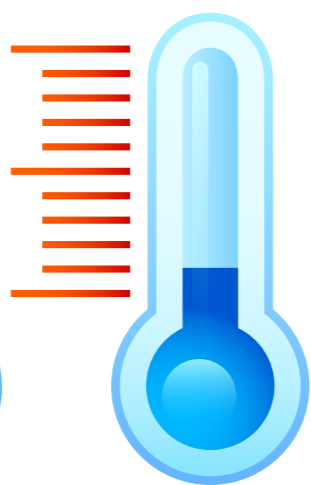

It keeps you safe and healthy.

There are environmental hazards that are not visible.

An appropriate coverall will keep you safe from
occupational incidents.

It is not that complicated. It is systematic knowledge!

We have a well-developed education
system that includes smartphone app,
data center, chemical permeation lists
and other tools to guild you.

It is not that uncomfortable.

Both breathability and protection are possible!

The ergonomic designs and breathable fabric
of coverall ensure the safety and efficiency of
frontline operators.

It has been through intensive tests.

A coverall has been rigorously tested,
including liquid jet attack,
stretching for at least 1,500 times
and other similar tests.
